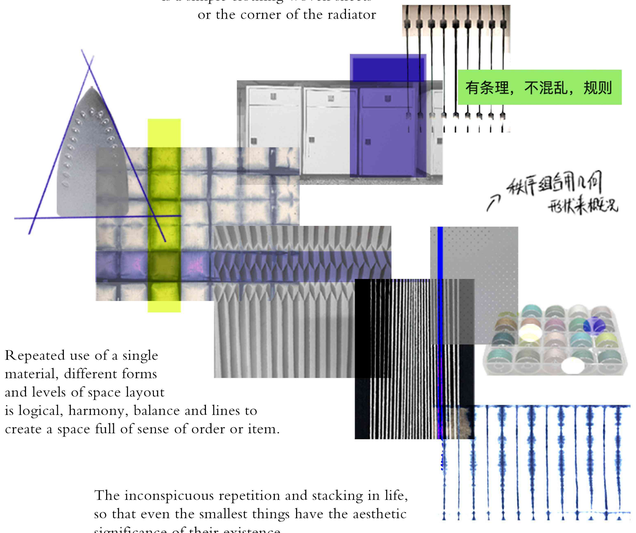
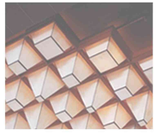
Inspiration source – “Sense of order”

Inspired by eye can see "order" in everyday life
Is the paper folded neatly
is a simple clothing woven sheets
or the corner of the radiator



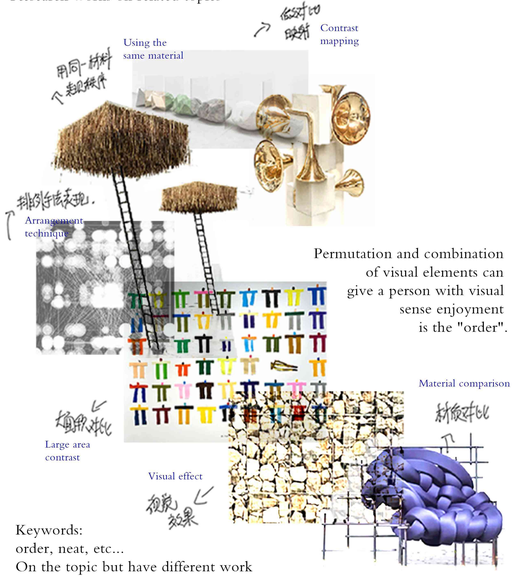
Repeated use of a single material, different forms and levels of space layout is logical, harmony, balance and lines to create a space full of sense of order or item.

The inconspicuous repetition and stacking in life, so that even the smallest things have the aesthetic significance of their existence.



Artist research

Research works on related topics



Permutation and combination of visual elements can give a person with visual sense enjoyment is the "order".

Keywords:
order, neat, etc...
On the topic but have different work research the technique of expression.
