

Brief

This design is inspired by my hometown Saltillo, which is located in Northern Mexico.

Saltillo is a region where dinosaurs used to live. While doing my moodboard, I got the inspiration from the dinosaur bones and their structure.

This piece is a multifunctional piece. As you can see, it can be worn in 4 different ways: as a jacket, as a vest, as a coat, and a sleeveless coat. The main purpose of this piece is to focus on sustainability by having one fun and creative piece that covers the function of buying 4 different pieces.
