Linear

Predictable

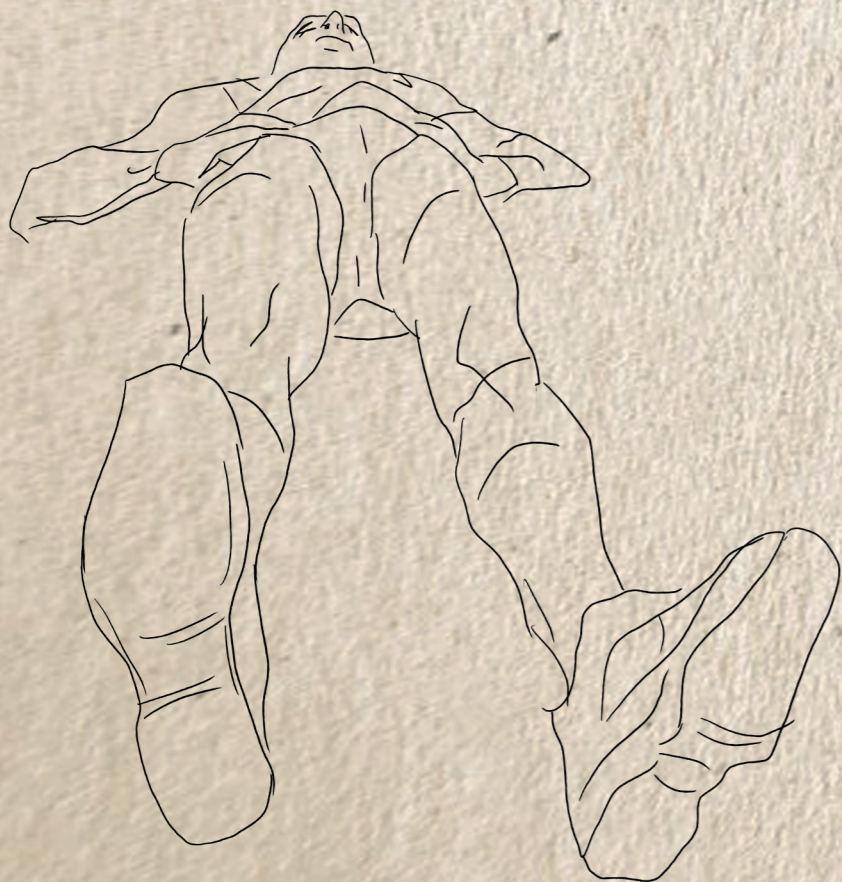

Nonlinear

Difficult/impossible to predict long term

Destruction, caos and recostruction from the smallest things.

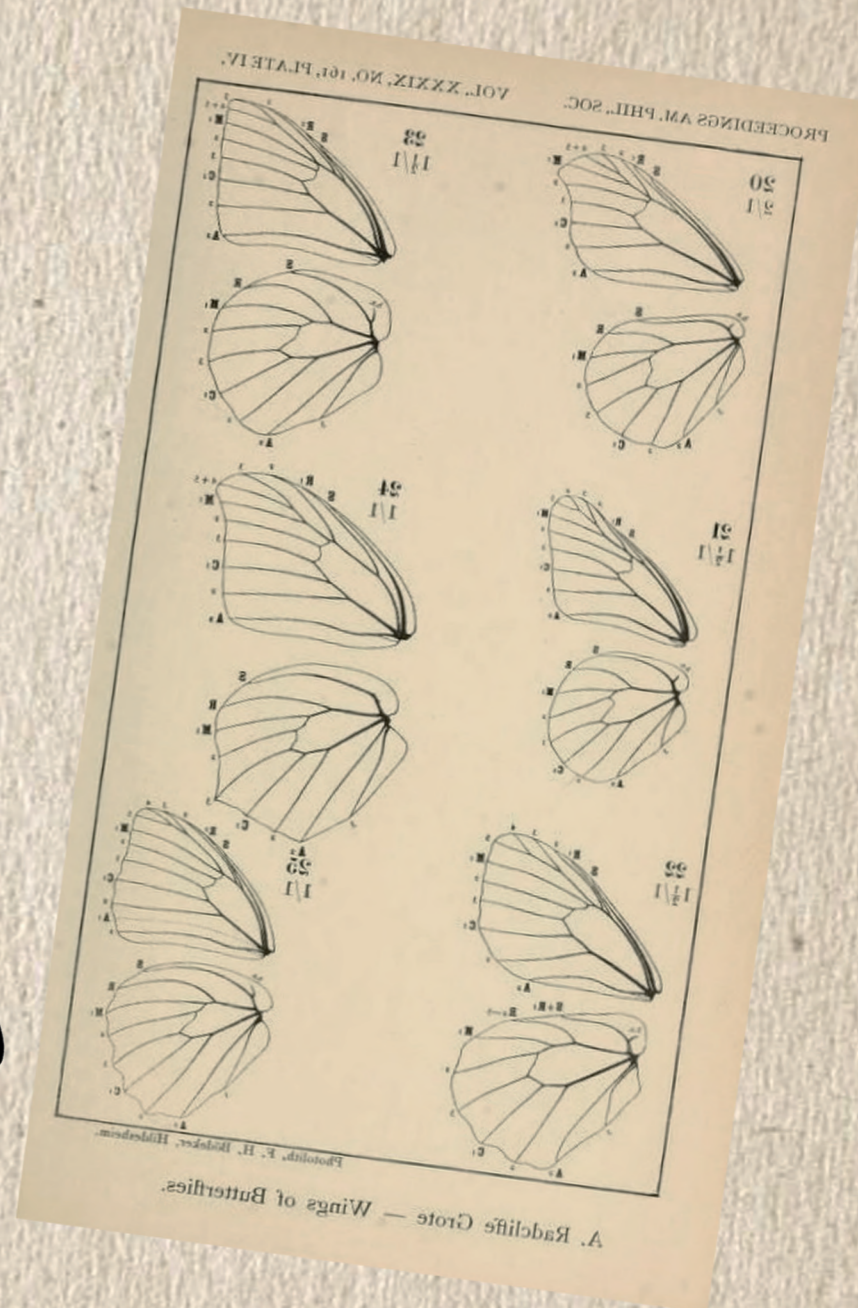

change prospective to see things.

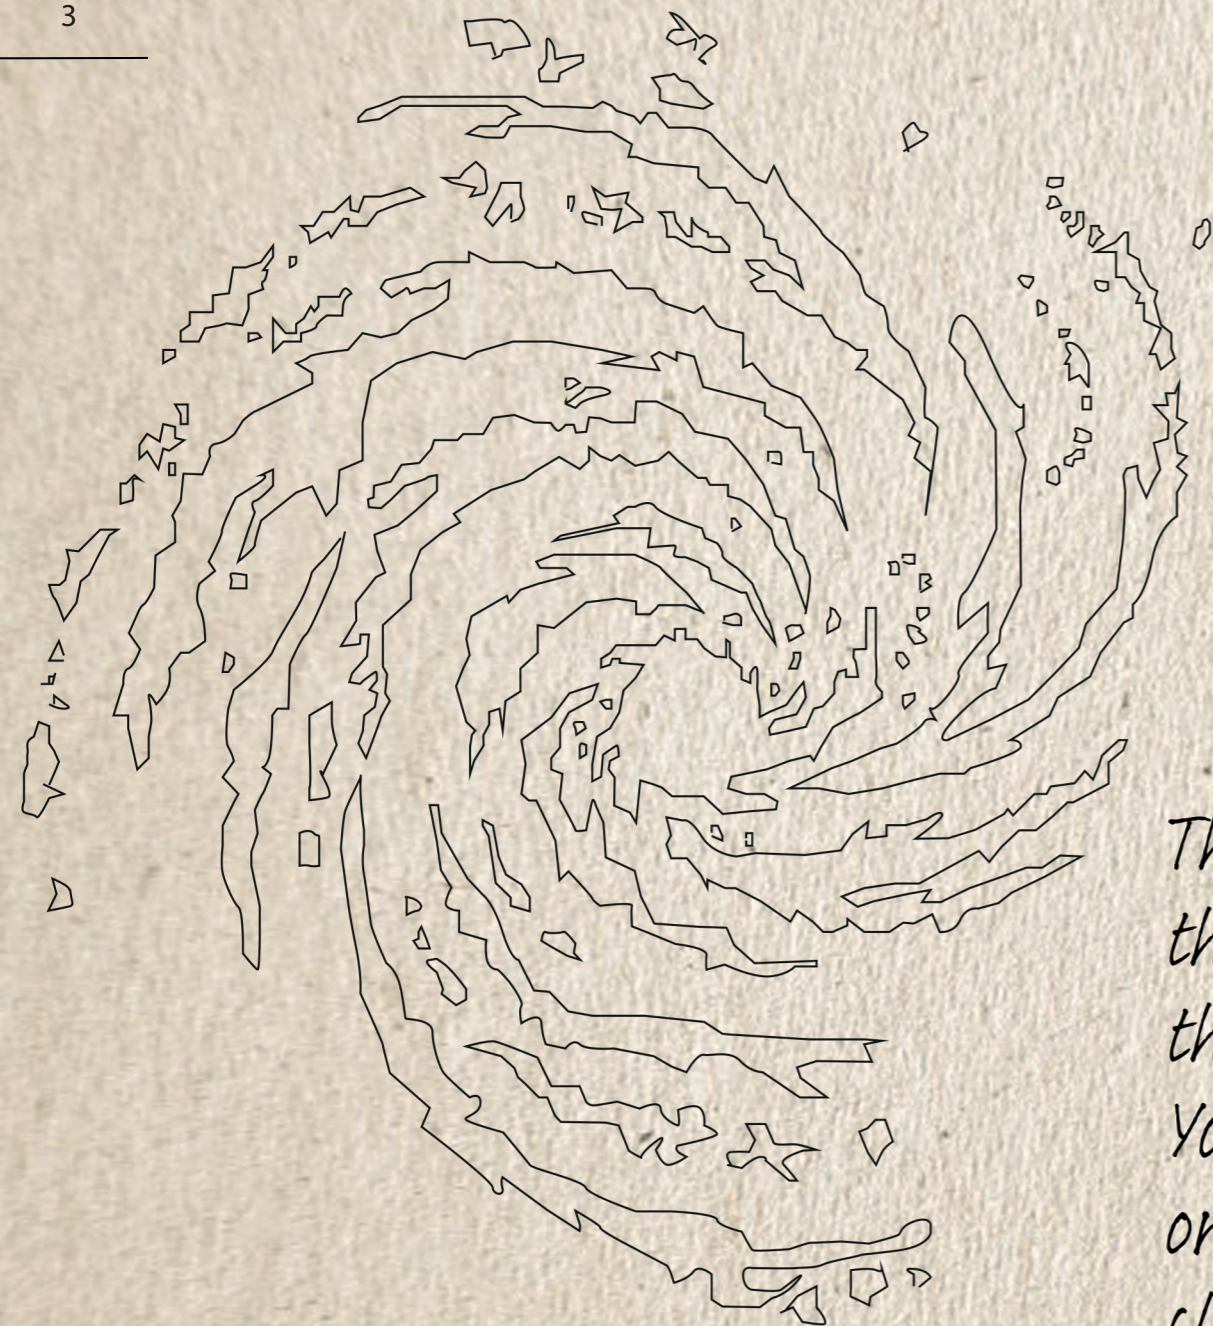

leather strips taken from leather strips

two pieces top and skirt

(2 in 1)

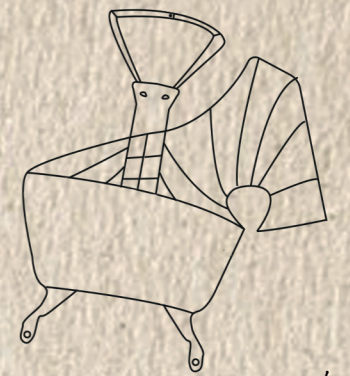

The concept of this project is to make you understand and feel that even the smallest choice can make a huge difference in the future.

You can use this idea in your daily life to change your future or to help to change something bigger than you like the climate change.

Or both if you like.

It's called the butterfly effect or chaos theory.

back

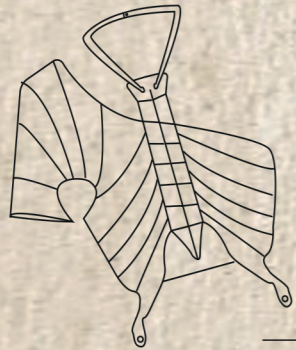

different layers

wooden buttons

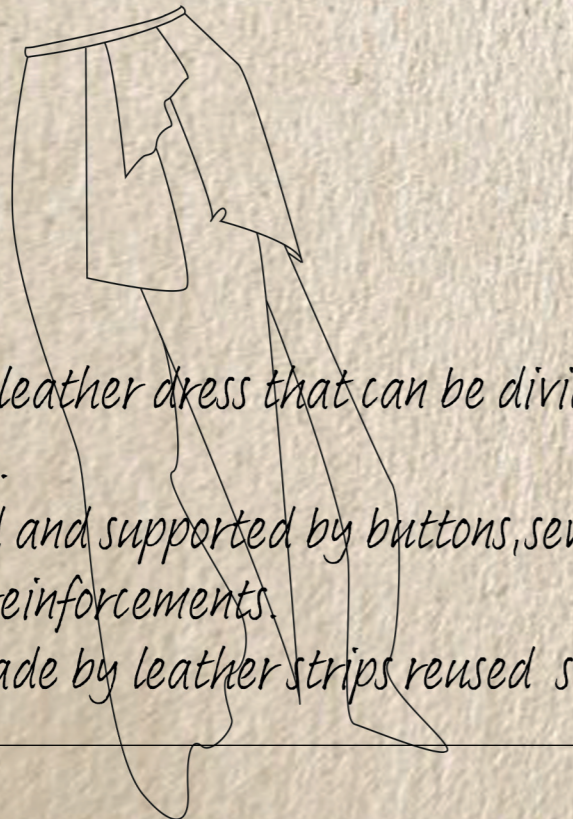

black 6 C

dress color

front

All black leather dress that can be divide in a skirt and a top. It's closed and supported by buttons, sewing and internal reinforcements. it's all made by leather strips reused scarps.
