<div>Title : TWISTED MILITANT</div>	<div>Strength : unique blend of military armor and black metal aesthetics, creating a hard style. avant garde design that is wearable yet visually striking.</div>	<div>Weakness : limited mainstream appeal high production costs</div>	<div>Opportunity : party casual</div>	<div>Threat : competition from established alternative fashion brands. risk of impractical design</div>
<div>Background : Twisted Militant is a footwear concept inspired by the tactical function and strong protective feeling of military gear, fused with the raw energy and mysterious aesthetic of black metal culture. The design features a standout tactical stud strap system adapted from Velcro components on body armor allowing multiple wearable forms. Combined with spiked details drawn from metal accessories, these elements are reimagined into structural accents that are both menacing and magnificent. Blending avant-garde attitude with everyday functionality,made for those who seek not just to wear, but to express. Twisted Militant is more than footwear it's a reflection of inner strength and confident in form. -Thanakorn Paowiset</div>	<div>Problem : This style is not accessible to everyone even though it has been trend for many years.</div> <div>Object : create avant garde product that merges emotion, functionality and alternative aesthetics, bridging the gap between pratical wear and bold artistic expression</div>	<div>Target Group : 15-28 gen z gen y</div>		
	<div>What Tsget Want : A Unique and versatile avant garde wearable shoe</div>	<div>Mood & Tone : Dark, Military, Street, Metal</div>		
<div>What To Say : function , emotion</div>	<div>Support : black metal aesthetic terror wave</div>	<div>Design Response : wearable avant garde product in everydaylife</div>
