Notes

- -You dont see or notice a buttefly so often in your daily life; but whenever you see one, it is beautiful. Very Beautiful. To some, it makea life worth living again, to some, it invokes a memorable moment and to others, it becomes a memorable moment.
- -Inspired by the butterfly, this design is a statement icon that reminds us to always cherich the small things in life. The concept mimics the butterfly wings in a suttle manner. The product is going to be bold; both in color and form, just like the butterfly. You have to notice it within branches.
