2026 World Leather Competition

靈感 Inspiration

本系列以波希米亞風格及「羽毛」為主要靈感來源。羽毛清晰的排列與層次結構，從主軸延伸出細小分支，呈現出輕盈卻穩定的特性，這樣的自然結構與「波希米亞風格」中所強調的自由、隨性、流動與貼近自然的精神所結合，讓整體設計在秩序之中保有一種不受拘束的鬆弛感。

This series draws its primary inspiration from bohemian style and feathers. The clear arrangement and layered structure of feathers, with fine branches extending from a central shaft, convey a sense of lightness balanced with stability. This natural structure, combined with the bohemian emphasis on freedom, spontaneity, fluidity, and a close connection to nature, allows the overall design to maintain a relaxed, unrestrained feeling within an underlying sense of order.

材質 Materials

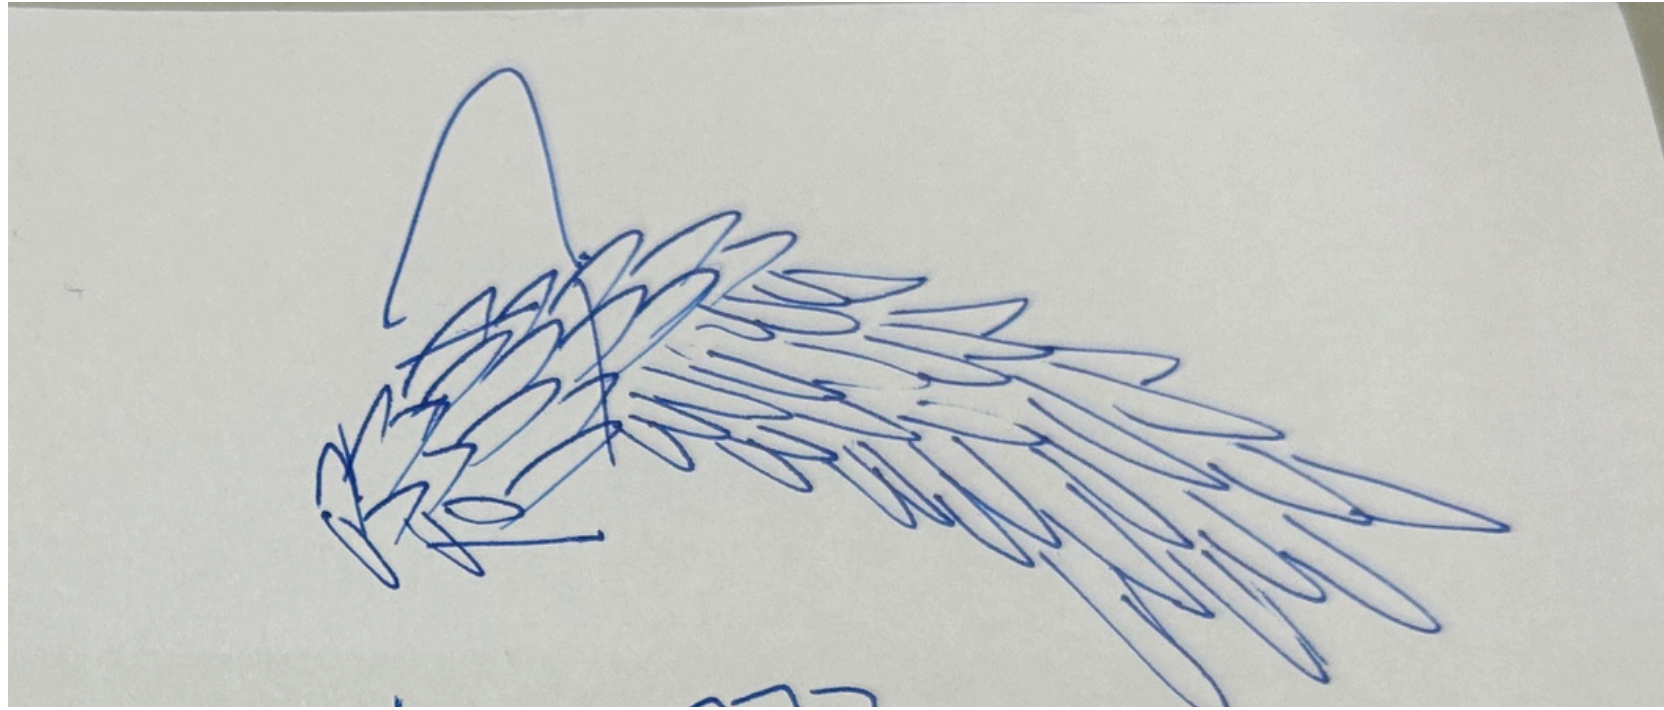

以水洗牛皮紙及牛皮作為主要設計原料，水洗牛皮紙會透過揉捏技法使其形成皺褶紋理，而牛皮則會以抓皺、劃破、剪開等技法來營造破損、粗糙的無序質感。另外，會加入羽毛、流蘇、蠟線、皮線、木珠等輔料作裝飾，強調層層堆疊、有輕有重的自然感。

Washed kraft paper and leather are used as the primary materials in the design. The washed kraft paper is kneaded to create a wrinkled texture, while the leather is treated with techniques such as crumpling, scoring, and cutting to produce a worn, rough, and irregular surface.

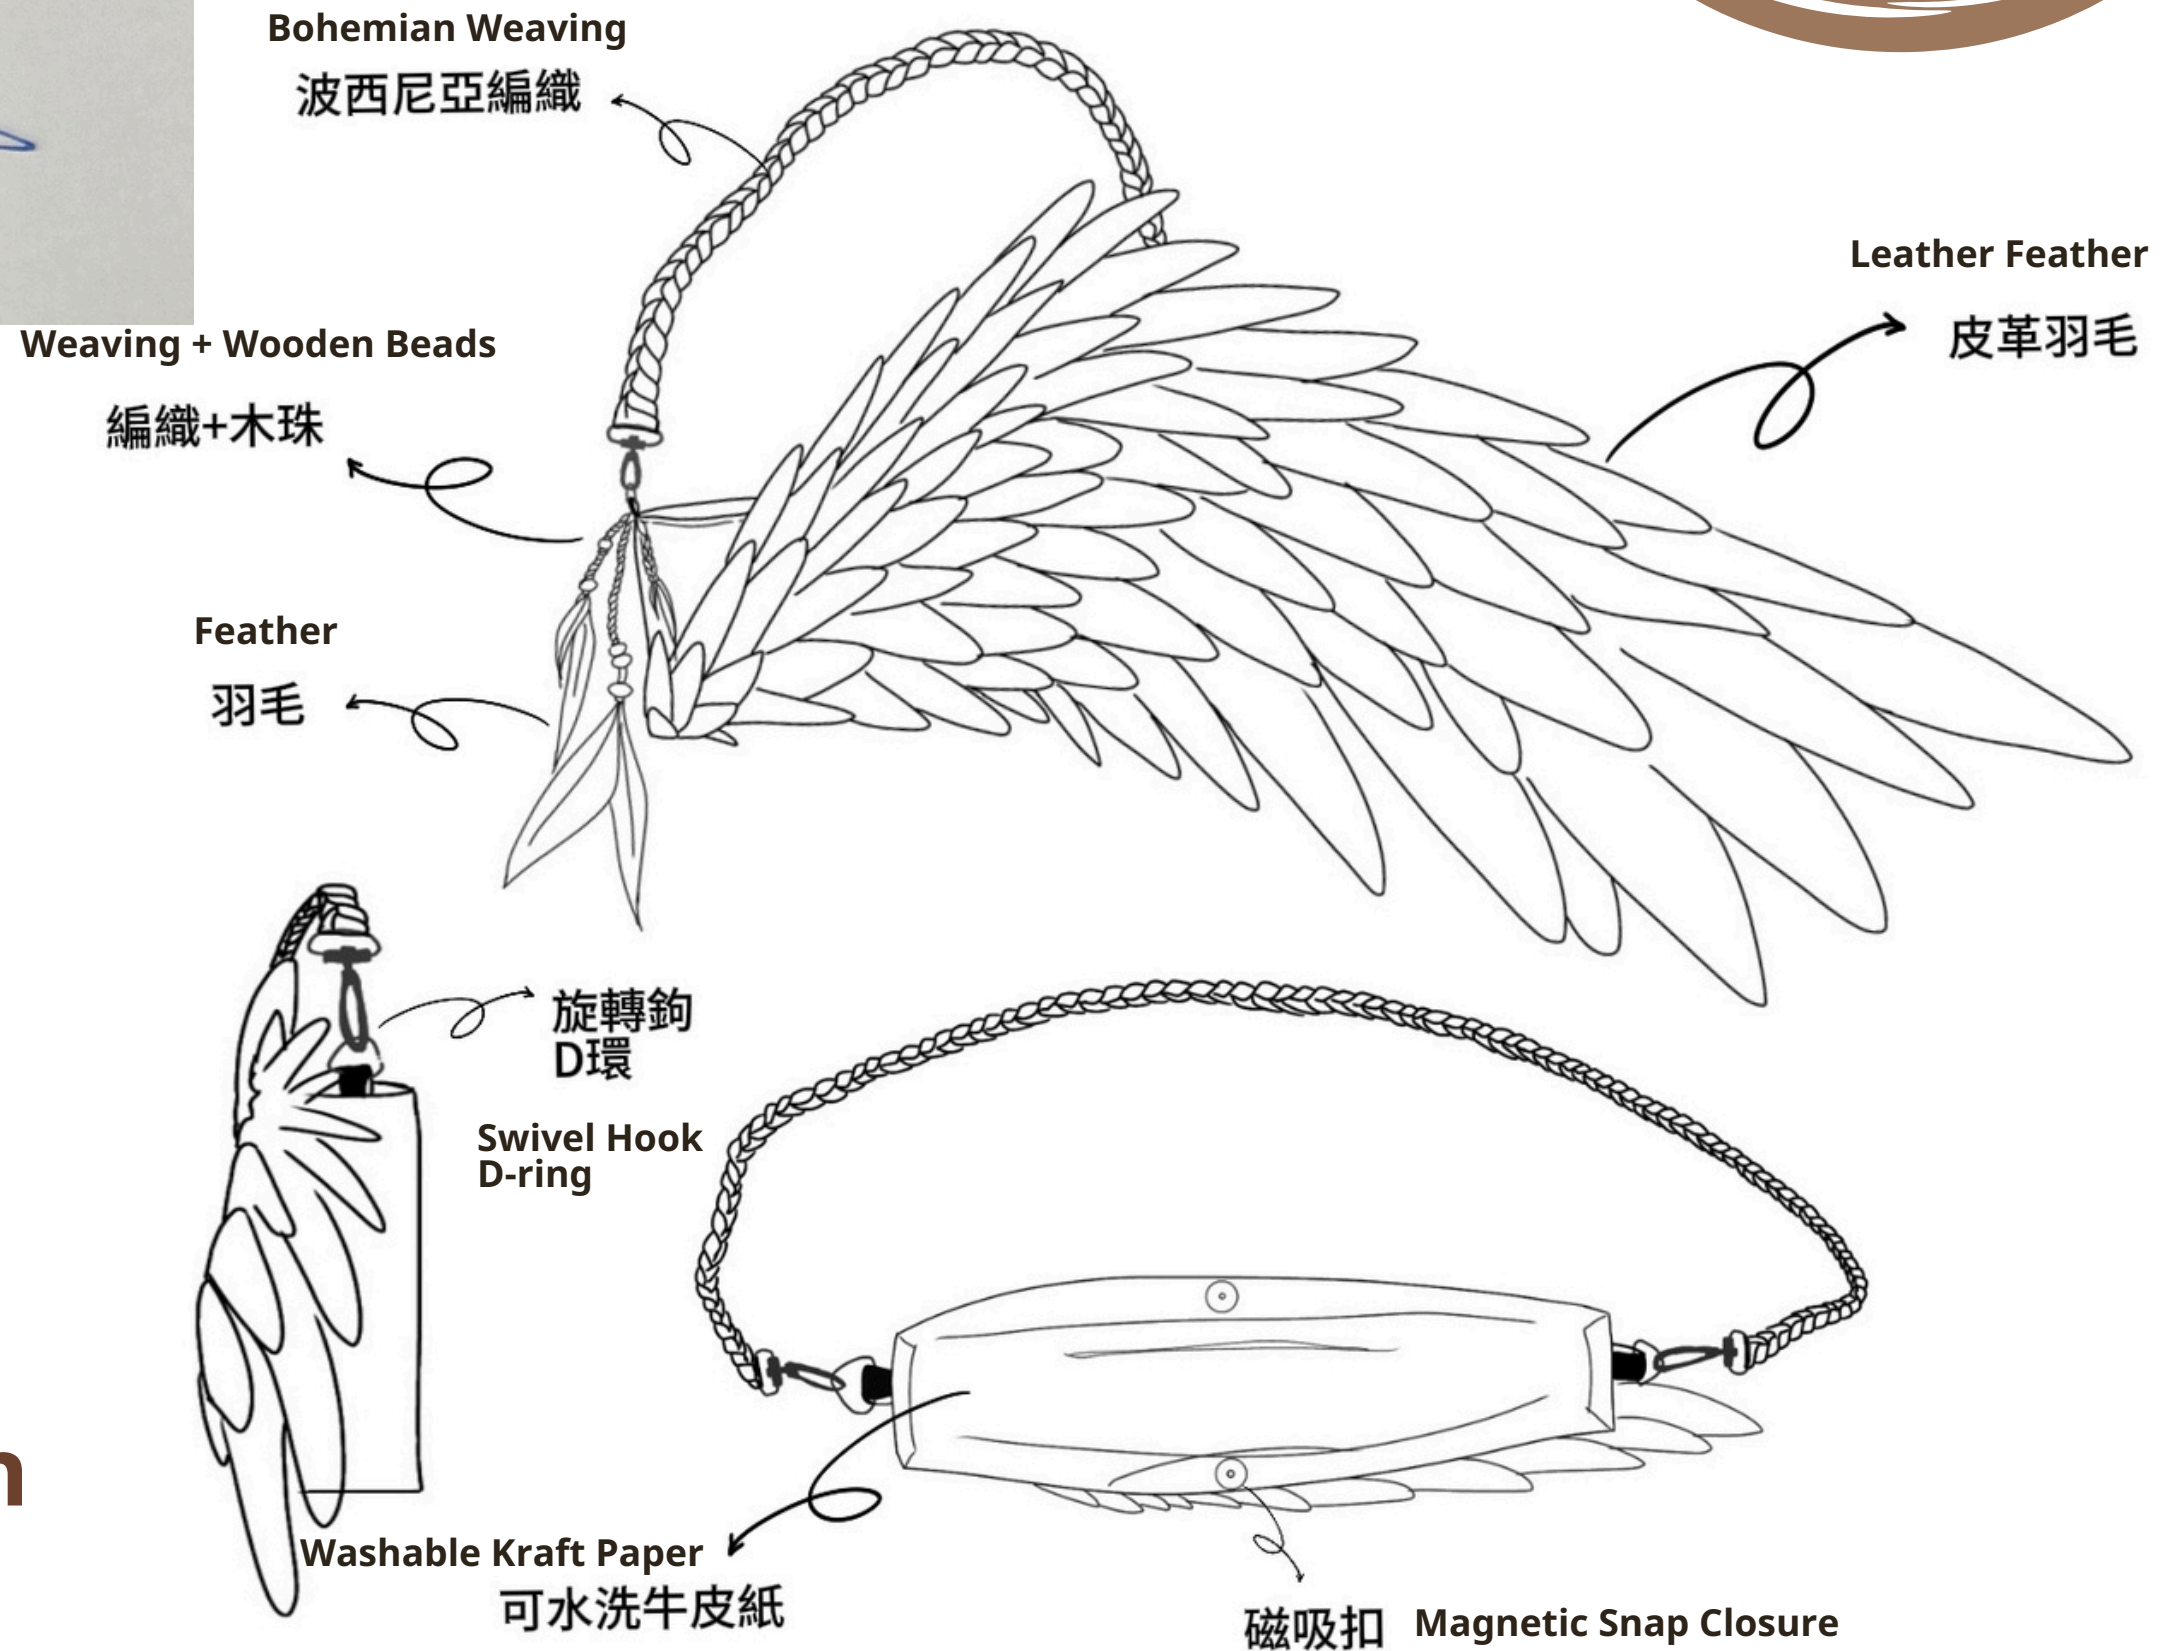

In addition, elements such as feathers, tassels, waxed cords, leather cords, and wooden beads are incorporated as decorative details, emphasizing layered compositions and a natural sense of variation in weight and texture.

本包款以天使翅膀為主要造型，象徵守護、純粹與超越現實的狀態

並透過層層排列的羽毛結構，呈現出理性秩序與流動感之間的平衡。整體外觀以皮革製作羽毛，藉由裁切與堆疊形成輕盈卻具有份量的立體輪廓，使包款在視覺上兼具柔和與力量。

This bag design takes angel wings as its primary form, symbolizing protection, purity, and a state that transcends reality. Through the layered arrangement of feather-like structures, it expresses a balance between rational order and a sense of flow.

The overall appearance features feathers crafted from leather; through cutting and layering techniques, they create a three-dimensional silhouette that feels both light and substantial, giving the design a visual sense of both softness and strength.
