CONCEPT

The concept of this bag is inspired by the zodiac sign Scorpio, represented through the symbol of the scorpion, which embodies power, mystery, and irresistible allure. The shape of the scorpion's tail is reinterpreted as the bag strap, symbolizing both a weapon and a shield — reflecting the strength and elegance of Scorpio women.

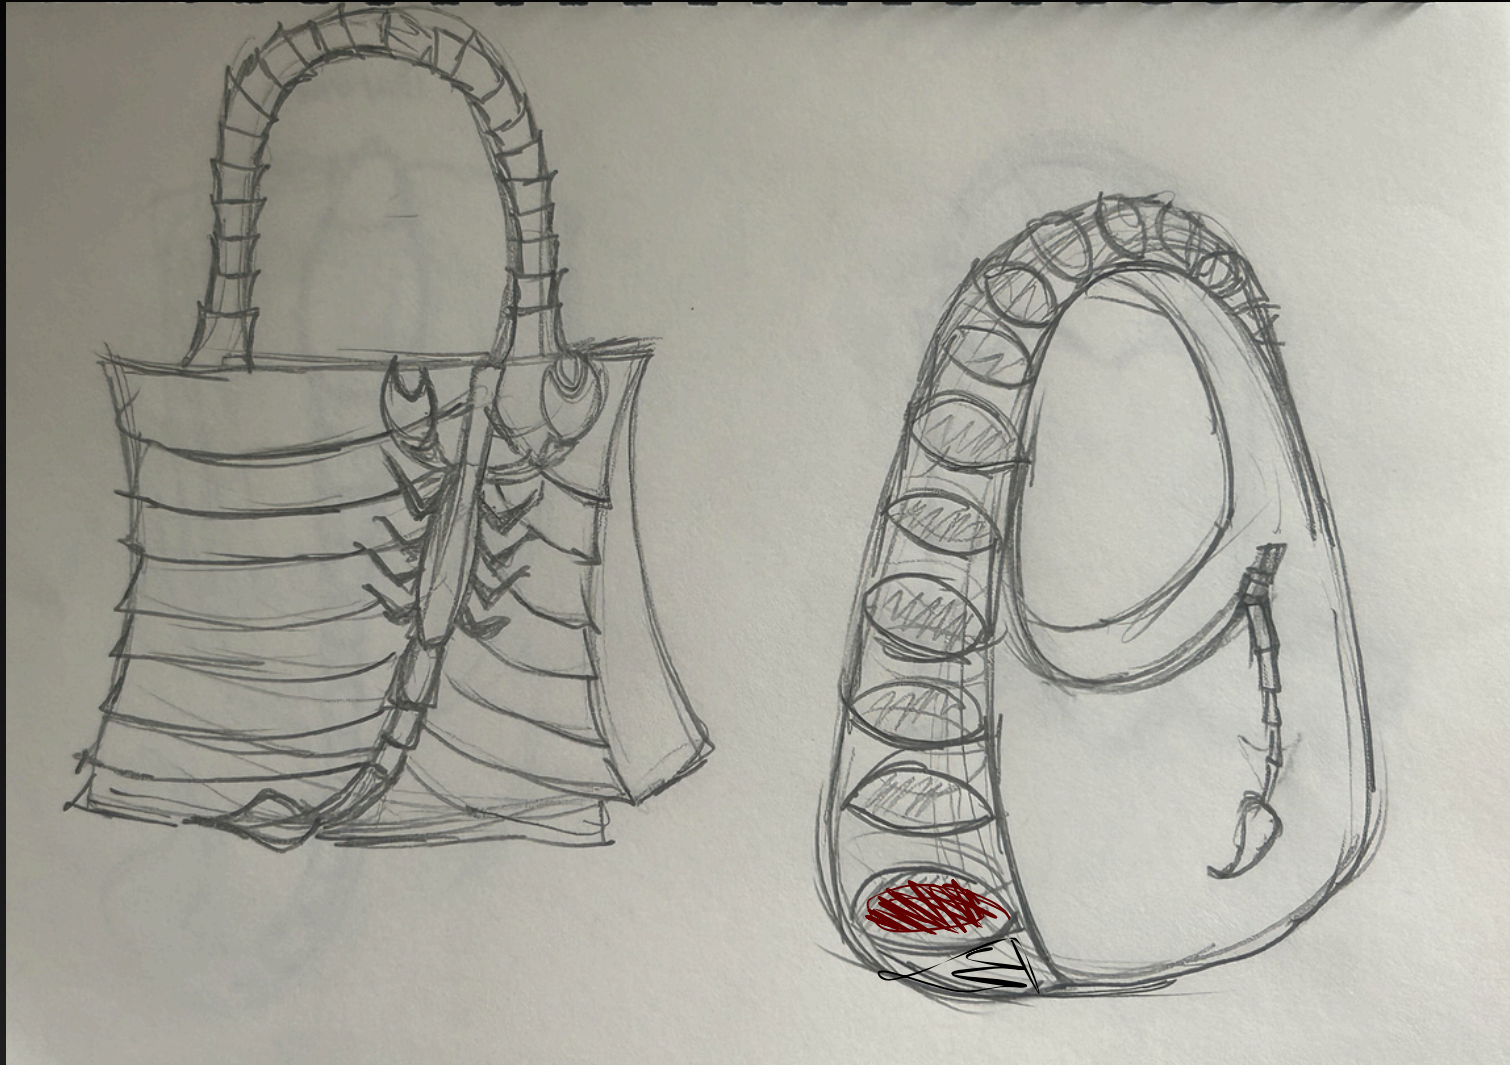

The bag features black and glossy black tones to express a dark, luxurious, and seductive aesthetic. Black also represents confidence, power, and mystery, which perfectly capture the identity of a Scorpio woman.

Scorpio women possess a dark feminine charm — calm, confident, mysterious, and filled with inner strength. They are strong-willed, ambitious, and capable of transforming pain into power.

Therefore, this bag is not merely a fashion item, but a true representation of feminine power, sensuality, strength, and confidence — the essence of a Scorpio woman.
